

SERVICE PORTFOLIO · SECOND LEAD CAPABILITY

CFO & Finance Transformation

Strategic financial leadership without the full-time overhead — virtual CFO, controllership and finance transformation.

Service proposition

Growing businesses often need CFO-level judgement before they need a full-time CFO. TAG bridges management vision and financial implementation: oversight, reporting discipline, forecasting and finance-process improvement, delivered by partners with senior controllership experience in large listed and multinational organisations.

When you need us — and who it's for

Business situations that trigger the need

- You need financial leadership but not a full-time CFO
- The monthly close is slow, manual or unreliable
- Investors and lenders need credible reporting and forecasts
- A funding round or transaction requires finance readiness
- Finance processes and controls need to scale with the business
- ERP implementation or automation is on the agenda

Who this service is for

- Founders and boards scaling without a full finance function
- Businesses preparing for investment or a transaction
- Groups needing consolidation and management reporting discipline
- Finance teams needing capability and process uplift
