

SECOND LEAD CAPABILITY

CFO & Finance Transformation

Strategic financial leadership without the full-time overhead — virtual CFO, controllership and finance transformation.

Overview

Growing businesses often need CFO-level judgement before they need a full-time CFO. TAG bridges management vision and financial implementation: oversight, reporting discipline, forecasting and finance-process improvement, delivered by partners with senior controllership experience in large listed and multinational organisations.

Scope of assistance

CFO & controllership

- Virtual and fractional CFO services
- Finance controllership
- Board and investor reporting

Accounting & close

- Accounting and bookkeeping
- Monthly and annual financial close
- Consolidation and group reporting
- Transaction accounting
- Post-acquisition finance integration

Planning & analysis

- MIS and management reporting
- Budgeting and forecasting
- Financial planning and analysis (FP&A)
- Cash-flow and working-capital management

Reporting & standards

- Ind AS, IFRS and accounting advisory
- Accounting policy development
- Audit preparedness and coordination

Transformation

- ERP implementation and finance automation
- Shared-service and finance-process design
- Finance-team structuring

Typical deliverables

- Board and investor reporting packs
- Reliable monthly close and MIS
- Budgets, forecasts and cash-flow models
- Consolidated and Ind AS financials
- Finance process/SOP redesign
- ERP and automation roadmaps

Experience

Led by Gaurav Sharma, whose finance-leadership career spans financial controllership for European infrastructure & energy MNCs and regional finance and tax leadership across India and APAC — building governance frameworks across 30+ entities and managing teams of 20+. Supported by partners with senior controllership in leading British companies and Fortune 100 global technology groups — including close-cycle reduction, 50%+ reduction in manual journals, SAP S/4HANA implementation, group consolidation across 100+ subsidiaries, and audit-ready reporting.
