

FLAGSHIP CAPABILITY

Global Transfer Pricing

Global transfer pricing documentation and economic analysis, prepared from India for multinational groups and overseas advisory firms.

Overview

Transfer pricing is increasingly a multi-country exercise that rewards central coordination. TAG prepares Local File, Master File and multi-country documentation from a single Indian delivery hub — with common information requests, defined review milestones and jurisdiction-specific adaptation. We serve corporate groups directly, co-source with advisers, and offer white-label support for overseas firms.

Scope of assistance

Global documentation

- Local File preparation
- Master File support
- Multi-country documentation coordination

Economic analysis

- FAR (functions, assets, risks) analysis
- Method selection
- Comparable searches and benchmarking
- Financial analysis

Intercompany arrangements

- Services, manufacturing and distribution

- Royalties and intangibles
- Financing and guarantees (within confirmed delivery capability)

Policy implementation

- Pricing policies and allocation methodologies
- Intercompany agreements
- Annual policy updates

Delivery model

- Central coordination from India
- Common information requests
- Defined review milestones
- Jurisdiction-specific adaptation

Typical deliverables

- Local File and Master File
- Benchmarking and comparable studies
- FAR and economic analysis
- Intercompany agreements and pricing policies
- Annual documentation updates
- White-label documentation for overseas firms

Experience

TAG Group has transfer pricing experience across the Netherlands, Luxembourg, Singapore, UAE, Australia, India and many others — serving multinational groups directly and as the back-end delivery partner for overseas advisory firms.
