

ONE-STOP ESTABLISHMENT

India Entry: One-Stop Business Establishment

Your single coordinating partner to plan, establish and run a business in India — strategy, incorporation, tax, finance, HR, IT, premises and operations, end to end.

Overview

Entering India means navigating strategy, incorporation, tax, finance, hiring, technology and premises at once — usually across many vendors. TAG Group replaces that with one accountable interface that takes you from feasibility to a fully running operation, and then to a smooth hand-over to your own team. Each workstream is led by a dedicated partner, so you get specialist depth with single-point coordination.

Scope of assistance

Entry strategy

- India-entry feasibility and operating model
- Market-entry and location assessment
- Subsidiary, LLP, branch, liaison and project-office evaluation
- Tax, FEMA and regulatory modelling
- State and government-incentive evaluation
- Business plan and implementation roadmap

Establishment

- Incorporation and regulatory registrations
- PAN, TAN and GST registrations
- Banking and capital-infusion coordination
- Office, factory, warehouse and land identification
- Lease and property-transaction coordination
- Local vendor and professional-service coordination

Finance & compliance

- Accounting and bookkeeping
- Payroll processing
- MIS and management reporting

- Tax and regulatory compliance
- Transfer pricing setup and intercompany agreements
- Internal controls, finance processes and virtual CFO support

HR & recruitment

- Organisation and workforce planning
- Leadership and specialist hiring
- Recruitment-process management
- Employment documentation coordination
- Payroll and employee compliance
- Blue-collar and facility workforce support
- Learning and capability programmes

Technology & infrastructure

- IT infrastructure planning
- Hardware and software procurement support
- Networks, servers and cloud infrastructure
- Cybersecurity and information-security controls
- ERP and business-system implementation support
- Collaboration tools and IT vendor management

Typical deliverables

- India-entry feasibility & operating model
- Incorporation and registrations
- Banking and premises coordination
- Finance, payroll and compliance setup
- Recruitment and IT infrastructure setup
- Transition and ongoing support plan

Experience

Delivered through TAG's integrated team and specialist network — tax, CFO, HR (recruitment, L&D, SAP HR), IT infrastructure (20+ years enterprise experience), and real-estate & workforce coordination across Delhi NCR and other markets.
